SCANIA PRIVACY

STATEMENT

Respect and *Responsibility* are core values for us at Scania. They form the foundation when we interact with you in your role as our valued customer, a driver of our vehicles, a co-worker in our global organisation, a trusted business partner/supplier or when visiting our websites, premises or events.

The data controller responsible for your personal data is Scania CV AB, unless otherwise stated in a privacy statement specific to a market or a service as accessible through www.scania.com.

We process your personal data when it is needed to:

- deliver our products and services,
- support and assist you when you use our products and services,
- fulfil and follow up contractual obligations, ours as well as yours,
- fulfil legal obligations and legitimate requests from law enforcement and other authorities,
- provide information about our products and services as well as upcoming events,
- improve quality and develop existing, as well as new, products and services as well as our organization.

We strive to always handle and protect your personal data with respect and integrity. Sometimes we utilize trusted business partners to help us deliver our products and services. In those cases when we need to share your personal data with our business partners, we ensure that they treat your personal data with the same respect and integrity as we do.

In this privacy statement we would like to inform you what personal data we process, why we are doing it and how we ensure that your rights and your privacy is respected. Further information about how your personal data is processed may in specific cases be found in more detailed privacy notices, contracts and service descriptions. You will in these cases find the information when accessing the application/system/service. If you have any questions or concerns you are always welcome to contact us here or talk to your Scania contact.

Does Scania share my personal data with third parties?

To provide the best products and services we utilize our global organization and a global network of trusted partners. This means that we share your personal data (all or selected parts as mentioned in the different data subject categories) within the TRATON Group, which Scania is part of, as well as with trusted business partners that help us. Typical examples include:

- when you use the Scania Web shop we share personal data with our partners that handle the Web shop
- we process your personal data in global IT-systems that are developed, delivered or hosted by our external IT-partners (it can also be Scania IT)
- we may use third parties to help us organize events that you participate in, to provide you with hotel, transports etc.
- when you call our Emergency Assistance we may share your personal data with third parties for example the towing companies
- when our customer (either you or your employer) decides to engage a third-party service provider and thus grants access to such a provider, Scania will share personal data related to the driver, vehicle, engine, trailer, superstructure or other products
- when you are entering into a contract with Scania for the provision of a financial/insurance product or service, we may share information with trusted parties for credit worthiness purposes
- when we are doing research and development, we may share personal data with universities, research facilities or other trusted partners.
- if you choose to accept third party cookies, your personal data may be shared with these third parties (please see our Cookie Policy for further information on Cookies).
- when Scania processes personal data in global HR processes, your personal data is transferred to the Scania unit to which you send your job application or are employed
- when you participate in internal knowledge sharing with other employees within the Scania Group your personal data will be shared with these
- when participating in trainings, your personal data will be shared with training coordination providers
- when fulfilling our obligations as an employer, we will share your personal data with banks and insurance companies
- when fulfilling our obligations under collective agreements and legislation, we will share your personal data with trade unions and work councils.'

In cases where we need to share your personal data with our business partners, we ensure that they treat your personal data with the same respect and integrity as we do. We also share your personal data with public authorities if required by law or a legitimate legal request is received from law enforcement or another authority/institution.

If your personal data is transferred out of the European Union ("EU") to a "third country" country (country outside the EU / EEA), this is done using appropriate transfer mechanisms including the relevant prior assessments and appropriate safeguards, see further just below.

Where does Scania process my personal data?

Scania is a global company with operations in over 100 countries. This means that we sometimes choose to process your personal data (all or selected parts) inside as well as outside of the European Union. When doing so we always comply with existing laws and

regulations as well as court decisions to ensure that your personal data is handled in a secure way. If your personal data is transferred out of the European Union this is done using appropriate transfer mechanisms including the relevant prior assessments and appropriate safeguards. Most commonly Standard Contractual Clauses (SCC) issued by the European Commission, or an adequacy decision concluded by the European commission are relied upon. You have the right to receive a copy of the relevant concluded SCC if your personal data is part of a transfer, secured by SCC. Reach out to us here or talk to your Scania contact.

In this context 'processing' means any operation or set of operations on personal data such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

How does Scania protect my personal data?
We are committed to protecting your personal data. We take all appropriate and reasonable legal, technical and organizational security measures to adequately protect the personal data that we process. Our security measures are continuously improved in line with the development of available security products and services.

How long does Scania keep my personal data?
Specific processing activities have their own individual retention periods applicable to them as per the legal basis and/or purpose of processing. We, therefore, minimise or delete your personal data as soon as it is no longer needed to:

- fulfil our contractual obligations towards you
- fulfil the purpose for which the personal data was collected
- fulfil our legal obligations

Does Scania use automated decision making and profiling?
Automated decision making is used in Recruiting. Basic criteria, such as educational degree, language skills and/or specific professional experience, are defined for the individual job position. The qualifications of the job applicant are compared to the criteria. If a candidate does not fulfil the basic requirements for the specific job position that they have applied for the applicant will be disqualified for the particular job position. The job applicant is welcome to apply for other positions.

Profiling is used when selecting employees for internal individual development programs. The profiling is made based on formal qualifications, personality tests and logic ability tests. If admitted, the profile is used for designing an individual development program for each participating employee.

Scania may further use profiling on its website visitors in order to personalise and adapt any marketing to better suite each individual website visitor's preferences.

What are my rights?
Right to be informed
You have the right to be informed about the personal data we process about you. In addition, you have the right to be informed about the specifics about the processing, including why your personal data will be processed, how long your personal data will be retained, recipients or categories of recipients of the

personal data, the legitimate interest pursued by us (if applicable) and any "third country" (country outside the EU / EEA) transfers taking place.

We provide this information in this Privacy Statement, but as mentioned above, more specific information about how your personal data is processed can in certain cases be found in more detailed privacy notices, including contract appendices, and service descriptions. You will in these cases find the information when accessing the application/system/service. If you have any questions or concerns you are always welcome to contact us here or talk to your Scania contact.

Right of access
You have the right to obtain confirmation from us as to whether we process your personal data. When this is the case, you have the right to receive a copy showing the personal data we process regarding you and in addition the certain information, including the purposes of the processing, the recipient of categories, the envisaged retention time and the existence of automated decision making (including profiling). Once we have confirmed your identity, the extract will be handed over to you in a secure way, and in an intelligible and easily accessible form.

Right to rectification
You have the right to update your information to ensure that we always have the correct information.

Right to erasure
You may, without undue delay, have your personal data deleted if any of the following conditions apply:
- If the personal data is no longer needed for the purposes for which it was collected or otherwise processed.
- If you have objected to its use and there are no overriding legitimate grounds for us to process it.
- If the processing is based solely on your consent and you withdraw your consent.
- If deletion is required to fulfil a legal obligation or if the personal data has been processed unlawfully.

There may be situations where the above shall not apply, e.g. if we must process the personal data to comply with EU law or applicable Member State law, or for the establishment, exercise or defence of a legal claim.

Right to object
You are always entitled to object to processing of your personal data for direct marketing. This is an absolute right, which means that if you object or unsubscribe, we will no longer process your personal data for direct marketing.

You also have the right to object to any processing that we base on legitimate interest or task carried out in the public interest, including profiling based on these grounds. The processing will then stop unless we demonstrate compelling legitimate grounds for the processing, which override the interests, rights and freedoms of the individual; or show that our processing is for the establishment, exercise or defence of legal claims.

Right to restriction
You are entitled to request a restriction of processing of your personal data in the following situations:
- When you believe your personal data is incorrect and you have therefore requested a correction. You may then request that processing of your personal data be limited while we validate if your personal data is incorrect.
- When the personal data processing is unlawful, and you oppose to your personal data being deleted and instead request that the use of these personal data be restricted.
- When you need your personal data to be able to determine, enforce or defend legal claims, even if we no longer need your personal data for the purpose of our

processing.

- Pending the verification whether our legitimate grounds override the rights and freedoms of the individual when you have objected to processing, and the processing is based on the legal grounds legitimate interest or task carried out in the public interest.

Rights regarding automated individual decision-making, including profiling

You have the right not to be subject to a decision based solely on automated processing, including profiling, which may produce legal effects or similar which significantly affects you. You have the right to object to such processing taking place.

This does however not apply if the decision is necessary for us to enter into, or perform, a contract with you, or if the decision is authorised by Union or Member State law to which we are subject, or if the decision is based on your explicit consent.

You further have the right to

- be informed about the existence of automated decision making, including profiling
- receive meaningful information about the logic involved, the significance and envisaged consequences of the processing, and
- obtain human intervention, to express your point of view and to contest the decision.

Right to data portability

You are entitled to obtain the personal data you have provided to us to process it elsewhere. This right applies in cases where our processing of your personal data is based on the legal ground that you have given your consent to the personal data processing or if you have entered a contract with us and the processing is carried out by automated means.

Filing a complaint

If you believe your personal data is not being processed in compliance with current regulations, please report it to us as soon as possible. You also have the right to file a complaint with your Data Protection Authority.

How do I contact Scania if I have questions or a complaint?

You are always welcome to contact our Data Protection Officer or talk with your local Scania contact.

PERSONAL DATA WE PROCESS

The personal data we collect depends on your relationship with Scania. In the sections below, you can access detailed information about the personal data we collect for different purposes.

What personal data does Scania process from you as a customer?

When you represent your company, we need to process your personal data for the purposes listed below. If you are a sole trader, all data that we process about your company becomes personal data.

Why do we process your personal data?	What categories of personal data do we process?	Legal ground
To create a database of prospect customers, e.g., by using data from third parties	• Organizational data (such as company name, country, company address and phone number) • Contact information (such as name, email, phone number, address)	Legitimate interest
To provide a quotation	• Organizational data (such as company name, country, company address and phone number) • Contact information (such as name, email, phone number, address) • If you are a sole trader, we process financial data such as credit ratings • Contact preferences • Purchases and transactions • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes	Legitimate interest
To deliver upon a contract	• Organizational data (such as company name, country, company address and phone number) • Contact information (such as name, email, phone number, address) • If you are a sole trader, we also process financial data such as credit ratings, bank accounts and payments as well as contractual related data such as contract number, order number, invoices • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes	Contractual obligation

| To provide services and support, and to follow up on contractual obligations | • Contact information (such as name, email, phone number, address)
• Organizational data (such as company name, country, company address and phone number)

• Contact preferences
• Purchases and transactions
• Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings
• Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID
• Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes | Contractual obligation |

| To inform you about updates, products and services that we believe may be of interest | • Contact information (such as name, email, phone number, address)
• Contact preferences
• Profession
• Market Location
• Purchases and transactions
• Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings
• Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID
• Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes | Regulated by marketing laws per country |

To follow up our performance and how satisfied you are with our products and services, including your participation in surveys	• Contact information (such as name, email, phone number, address) • Contact preferences • Purchases and transactions • Driving behaviour, such as driving patterns, geo-location and operating hours • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage engine data and error codes • IP address, operating system, device type, app name and version, browser name and version and your responses to survey questions	Legitimate interest

To make corrective actions	• Contact information (such as name, email, phone number, address) • Delivery address • Purchases and transactions • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • System logs from our IT-systems	Legitimate interest or contractual obligation

To analyse, improve quality and develop products, services and our organization	• Contact information (such as name, email, phone number, address) • Scania assigned registration numbers • Delivery address • Purchases and transactions • Financial data such as credit ratings, bank accounts and payments as well as contractual related data such as contract number, order number, invoices • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • System logs from our IT-systems • Responses to survey questions	Legitimate interest

To comply with legal obligations and legitimate requests from law enforcement and other authorities	• Contact information (such as name, email, phone number, address) • Delivery address • Purchases and transactions • Financial data such as credit ratings, bank accounts and payments as well as contractual related data such as contract number, order number, invoices • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • System logs from our IT-systems	Legal obligation or legitimate interest

To provide you with requested information and relevant updates	• Contact information (such as name, email, phone number, address) • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Geo-location • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage engine data and error codes • System logs from our IT-systems	Legitimate interest/Regulated by marketing laws per country
To protect our employees and our company assets	• Surveillance camera data such as Videos and Phots including Vehicle Identity number, Gender, Body description, Ethnicity, Facial recognition, etc • Scania premises passage control	Legitimate interest
To perform due diligence of customers and prospect customers	• Name	Legitimate interest
To perform investigations of alleged misconduct.	• Personal identifiers • Quasi personal identifiers such as Birthdate, Gender, Home address, Nationality, Professional organization • Behavioural and performance data • Biometric data. • Body descriptive data • Legal data • Education and skills • Financial data • Health data • IT usage data • Leaves, vacation, and working hours. • Monitoring, Recordings, and Images • Special category data such as opinion, ethnicity etc. • Position data • Professional Experience • Social and family data • Vehicle and Driver performance • Web browsing data	Legitimate interest

To manage legal matters	• Personal identifiers • Quasi personal identifiers such as Birthdate, Gender, Home address, Nationality, Professional organization • Behavioural and performance data • Biometric data • Body descriptive data • Legal data • Education and skills • Personnel category (blue or white collar worker) • Financial data • Health data • IT usage data • Leaves, vacation, and working hours. • Monitoring, Recordings, and Images • Special category data such as opinion, ethnicity etc. • Position data • Professional Experience • Social and family data • Vehicle and Driver performance data • Web browsing data	Legitimate interest

What personal data does Scania process from you as a driver/ operator?

You drive a Scania vehicle or operate a machine with a Scania component

We collect various types of operational data from the vehicle, engine, trailer, superstructures and other products we sell, such as fuel consumption, driving patterns, geo position, error codes et cetera. Some of this becomes personal data as we may identify who is driving the vehicle or operating the machine.
We process this data in order to, e.g.

- deliver the services requested by the customer – more information about data processing can be found in respective Service Descriptions
- on request deliver in-vehicle entertainment services
- conduct remote diagnostics as well as repair and maintenance planning
- provide support
- fulfil contractual obligations
- research, analyse, improve quality and develop existing, and new products as well as services and our organization
- comply with legal obligations and legitimate requests from law enforcement and other authorities
- inform you of relevant updates

The data we collect is either provided by your employer, collected from the vehicle, engine, trailer, superstructure or other products, or created in our IT-systems that you use.

You enter a driver competition organized by Scania

If you choose to enter a driver competition organized by Scania we need to collect some of your personal data - for example your name and contact information - in order to process your registration and your participation in the competition. This personal data is provided directly by you.

You have an emergency on the road and you call Scania Assistance

If you have an emergency on the road and you choose to contact us for emergency assistance we need to process your personal data in order to identify you, understand your emergency, provide assistance and contact you to continuously communicate information regarding your assistance case.

Why do we process your personal data	What categories of personal data do we process?	Legal ground
To fulfil our contractual obligations such as: • deliver services requested by the customer / your employer • on request deliver in-vehicle entertainment services • conducting remote diagnostics as well as repair and maintenance planning • provide support	• Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • System logs from our IT-systems	Legitimate interest

To follow up contractual obligations of the customer	• Contact information (such as name, email, phone number, address) • Contact preferences • Purchases and transactions • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • System logs from our IT-systems	Legitimate interest

| To process your participation in our driving competitions | • Contact information (such as name, email, phone number, address)
• Your age
• Your language preference
• The company name for your employer
• Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings
• Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID
• Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes | Consent |

| To provide emergency assistance on the road | Contact information (such as name, email, phone number, address) Organizational data (such as company name, country, company address and phone number) Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID Registration number (licence plate) Description of the emergency incl. description of any physical injuries and need of medical assistance Geographic position Vehicle data for remote diagnostics Audio or video call records | Legitimate interest |

| To make corrective actions | • Contact information (such as name, email, phone number, address)
• Delivery address
• Purchases and transactions
• Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings
• Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID
• Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes
• System logs from our IT-systems | Legitimate interest or contractual obligation |

To analyse, improve and develop existing and new products and services	• Contact information (such as name, email, phone number, address) • Organizational data (such as company name, country, company address and phone number) • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • Emergency assistance cases • Responses to survey questions • Location • System logs from our IT-systems	Legitimate interest

To comply with legal obligations and legitimate requests from law enforcement and other authorities	• Contact information (such as name, email, phone number, address) • Delivery address • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • System logs from our IT-systems	Legal obligation or legitimate interest

To provide you with requested information and relevant updates	• Contact information (such as name, email, phone number, address) • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • Geo-location	Legitimate interest/Regulated by marketing laws per country
To follow up our performance and how satisfied you are with our products and services, including your participation in surveys	• Contact information (such as name, email, phone number, address) • Organizational data (such as company name, country, company address and phone number) • Contact preferences • Purchases and transactions • Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine data and error codes • IP address, operating system, device type, app name and version, browser name and version and your responses to survey	Legitimate interest

To provide a quotation to the customer / your employer	• Driving behaviour, such as driving patterns, geo-location, operating hours and preference settings • Identification data, for example the identification number of the vehicle, trailer, superstructure or engine, as well as driver ID, IP number, MAC address, IT-system and user ID • Performance data from the vehicle, trailer, superstructure, engine and other products, for example information from vehicle components, fuel consumption, brake usage, gear shifting, battery usage, engine	Legitimate interest
To monitor the security of vehicles to be able to identify attacks and security breaches, and to be able to take action.	• Vehicle identifiers and electronic control unit identifiers	Legal obligation (Example: UNECE R.155)
To improve safety and comply with legislation regarding vehicle safety.	• Vehicle & driver performance /behavioural data • Monitoring, recordings and images	Legal obligation (example: GSR 2, EU Regulation 2019/2144)

To protect our employees and our company assets	• Surveillance camera data such as Videos and Phots including Vehicle Identity number, Gender, Body description, Ethnicity, Facial recognition, etc • Scania premises passage control	Legitimate interest

To perform investigations of alleged misconduct.	• Personal identifiers • Quasi personal identifiers such as Birthdate, Gender, Home address, Nationality, Professional organization etc • Behavioural and performance data • Biometric data. • Body descriptive data • Legal data • Education and skills • Financial data • Health data • IT usage data • Leaves, vacation, and working hours. • Monitoring, Recordings, and Images • Special category data such as opinion, ethnicity etc. • Position data • Professional Experience • Social and family data • Vehicle and Driver performance • Web browsing data	Legitimate interest
To manage legal matters	• Personal identifiers • Quasi personal identifiers such as Birthdate, Gender, Home address, Nationality, Professional organization • Behavioural and performance data • Biometric data • Body descriptive data • Legal data • Education and skills • Personnel category (blue or white collar worker) • Financial data • Health data • IT usage data • Leaves, vacation, and working hours. • Monitoring, Recordings, and Images • Special category data such as opinion, ethnicity etc. • Position data • Professional Experience • Social and family data • Vehicle and Driver performance data • Web browsing data	Legitimate interest

What personal data does Scania process regarding you as a candidate and job applicant?

When you apply for a position at Scania we ask you to provide some personal data in order to process your application and, if employed, prepare your employment agreement.

Note: When "Personal Identifiers" is listed below, one or more data elements identifying a person is used. This includes personal identification number, name, digital signature or signature on paper, driver ID and driver card number, employee ID number and employee ID card, professional and private phone number, professional and private e-mail address and user ID.

What personal data does Scania process regarding you as an employee?

As an employer, Scania will process personal data of employees, consultants and former employees.

During your employment at Scania we process your personal data in order to:
- administer your employment,
- fulfil our legal obligations as an employer
- fulfil our legitimate interest to e.g.:
  - steer, plan and evaluate the work
  - protect company employees and assets
  - contact and inform employees
  - being transparent to owners and the general public

After you have left the company, we process limited amounts of personal data required to fulfil our legal obligations, for example personal data showing your employment period.

Note: When "Personal Identifiers" is listed below, one or more data elements identifying a person is processed. This includes personal identification number, name, digital signature or signature on paper, driver ID and driver card number, employee ID number and employee ID card, professional and private phone number, professional and private e-mail address and user ID.

Special category personal data, defined in article 9.2 GDPR, which Scania process are:
- Union membership: The data is only collected and processed when it is needed for fulfilling collective agreements and local legislation e.g., when negotiating individual cases.
- Health: Only relevant data is collected and processed to fulfil Scania's legal obligation in rehabilitation, to fulfil Scania's policy on alcohol and drugs, on request from insurance companies and in order to carry out statutory health examinations.

What personal data does Scania process of you as a member of the public?

Scania is developing systems to assist drivers and also to have vehicles drive autonomously, without a driver. As part of the development work our vehicles are equipped with sensors like cameras, which might capture for example your image or license plate when passing nearby. The data collected by such sensors will not be used to track or identify you as an individual but only processed for the purposes specified below. This data can also be processed jointly with our sister brands in the TRATON group.

Why do we process your personal data?	What categories of personal data do we process?	Legal ground
To alert the driver, avoid accidents and improve traffic safety. (to comply with legislation)	• Monitoring, recordings and images • Vehicle & driver performance / behavioural data • Position data	Legal obligation (Example: GSR 2, EU Regulation 2019/2144)

To develop and verify software for autonomous driving.	• Monitoring, recordings and images • Position data	Legitimate interest
To protect our employees and our company assets	• Surveillance camera data such as Videos and Phots including Vehicle Identity number, Gender, Body description, Ethnicity, Facial recognition, etc • Scania premises passage control	Legitimate interest

To manage legal matters	- Personal identifiers - Quasi personal identifiers such as Birthdate, Gender, Home address, Nationality, Professional organization - Behavioural and performance data - Biometric data - Body descriptive data - Legal data - Education and skills - Personnel category (blue or white collar worker) - Financial data - Health data - IT usage data - Leaves, vacation, and working hours. - Monitoring, Recordings, and Images - Special category data such as opinion, ethnicity etc. - Position data - Professional Experience - Social and family data - Vehicle and Driver performance data - Web browsing data	Legitimate interest

What personal data does Scania process from you when using Scania's IT systems?

Why do we process your personal data?	What categories of personal data do we process?	Legal ground

To provide access to our IT-systems	• Personal Identifiers • Contact information • Professional organization	Legitimate interest
To enhance our IT-systems	• Personal Identifiers • Professional organization • IT usage data • Web browsing data	Legitimate interest
To protect our employees and our company assets	• Personal Identifiers • Contact information • Professional organization • IT usage data • Web browsing data	Legitimate interest
To provide IT support	• Personal Identifiers • Contact information • Professional organization • IT usage data • Web browsing data	Legitimate interest

COOKIE POLICY

We use cookies and other similar technologies (collectively referred to as 'cookies') on all of our websites relating to the domain 'scania.com' and sub-domains thereto. You may freely choose whether you wish to accept cookies on your device or not. Scania needs your consent to place and use cookies on your device, with the exception of such cookies that are strictly necessary for the safety and proper functioning of our website. We will only use other categories of cookies if you have allowed us to do so by checking the corresponding boxes.

If you at a certain point in time have chosen not to accept Scania's use of cookies, or if you have previously accepted our use of cookies and wish to modify your choices, you can go back and adjust your cookie choices at any time by clicking on 'Cookie Settings' at the bottom of our website which will redirect you to our cookie consent management platform. By doing so and adjusting your choice of cookies, Scania will automatically cease or initiate our usage of applicable cookies corresponding with your new and updated choices. You may also at any time manually clear your device of cookies previously placed by us, for further information on this, please read the section referred to as 'Managing Cookie Settings' below.

Below, you will find further information on cookies, including; what cookies are, which cookies we use, what our purpose is for using them, the retention period of each cookie, and how you go about blocking or deleting cookies.

Please note that if you refuse our use of cookies, the functionality of some parts of our website(s) may be limited.

What is a cookie?

Cookies are text files containing small amounts of information, which are downloaded to your device when you visit a website. Cookies are then sent back to the originating website on each subsequent visit, or to another website that recognises that cookie. Cookies are useful e.g. because of their ability to allow a website to recognise a user's device.

Cookies which Scania uses are mainly placed on your device in the following three ways:
1) A time-limited cookie remains on the website visitor's device for a predetermined period of time. The lifespan may vary between different types of cookies.
2) A session cookie is temporarily stored in the device's memory while a website visitor is on a website. A session cookie is automatically cleared and deleted when the website visitor closes the browser window. Session cookies are used, among other things, to record statistics on the use of the website.
3) Persistent cookies remain until you choose to delete them. These cookies are used, among other things, to store any of the personal settings which you have set at Scania's websites so that you, for example, do not have to re-enter certain choices regarding your personal settings every time you visit the website, and to adapt and make information and marketing as relevant as possible for you.

You can find more information about cookies at www.allaboutcookies.org.

What do we use cookies for?

We use cookies to enhance the functionality of our website. For example, cookies help authenticate the user if the user logs in to a secure area of the website, to determine what information is made available on a particular webpage. Also, login information can

be stored in a cookie, so the user can enter and leave the website without having to re-enter the same authentication information over and over. Cookies are also used to help you save certain information on the website, such as favourite products etc. They are also used for collecting statistics about user behaviour to enable us to improve the website experience.

Third Party Cookies

Third party cookies are stored by a third party other than the party responsible for the website, i.e. a company other than Scania.

Our website uses third-party cookies that are managed by Adobe, Baidu, Facebook, Google, LinkedIn, Twitter, Youko and YouTube. All these third-party cookies will forward and store information about your use of the webpage (including your IP address) to countries outside the European Union. These third parties may also transfer your information to other third parties if required by law.

Therefore, when you agree to consent to the use of these cookies, you authorize us to pass collected and maintained personal data to any country, including non-European Union countries, which may not have adequate data protection for the purposes described in this statement.

By declaring your consent as set forth in this cookie notice, you therefore explicitly and unambiguously agree that personal data, or parts thereof, may be disclosed or otherwise transferred, as described above, to recipients in countries that may provide different, less or even inadequate protection of personal data as compared to the standards applicable in the jurisdiction you reside or work in or from where you contacted us. For more information regarding Scania's processing of personal data via cookies and the transfer of such personal data to third countries, please refer to the section '**Processing of Personal Data and Transfers to Third Countries**' and **Scania's Privacy Statement**.

Cookies used on our website

We have divided and categorised the cookies which we use into the following categories in order to make it easier for you to make you cookie choices:

Necessary cookies:

Necessary cookies are needed for the website to function and cannot be switched off in our systems or opted out of. They are usually a consequence of you requesting services such as; setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but then some parts of the site will not work. These cookies do not store any personal data.

Performance cookies:

Performance cookies allow us to count visits and traffic, which is an important source of data for the improvement of our website. They help us to know which pages are the most and least popular and to see how visitors move around the site. All the information that these cookies collect is aggregated and is therefore anonymous. If you do not allow these cookies your visit to our site will not be counted in our statistics and will not contribute to performance monitoring and improvement of the website.

Functional cookies:

Functional cookies enable the website to provide enhanced functionality and personalisation. They may be set by us or by third-party providers whose services we have added to our pages. If you do not allow these cookies then some or all of these services may not function properly. Third-party providers may process your information, including personal data, when these cookies are activated.

Targeting cookies:

Targeting cookies may be set through our website either by us or by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant adverts on other sites. They are based on uniquely identifying your browser type and the type of internet device you use. If you do not allow these cookies, you will experience less targeted advertising.

Social media cookies:

Social media cookies are set by a range of social media services that we have added to the website to enable you to share our content with your friends and networks. They are capable of tracking your browser across other sites and building up a profile of your interests. This may impact the content and messages you see on other websites you visit. If you do not allow these cookies, you may not be able to use or see these sharing tools.

Unclassified cookies:

Unclassified cookies are cookies that we are in the process of classifying, together with the providers of each individual cookies. We will actively and regularly update the cookie-list below to correctly classify each cookie that we use.

For more information regarding what cookies we use please see our detailed cookie-list (below).

Duration and amount
We only set the durations for our own cookies; the third-party cookies are set by the third-party providers. Please visit the external providers' websites and read their cookie policies to find out more.
The list provided below contains the gross list of all cookies that can be obtained on all Scania.com-domains and sub-domains meaning that there will be mostly fewer cookies activated during your visit depending on your country and preferred website.

Manage Cookie Settings

You are, when visiting a Scania website, asked to let us know your cookie preferences.

You may at a later stage modify your choices and cookie settings at any time. You can do this by clicking on the 'Cookie Settings' link at the bottom of all pages found on our website. If you choose to opt out of any category of cookies, they will be automatically deactivated and will no longer retrieve information.

You can at any time choose to manually delete specific cookies from your device via your browser. You can also disable Scania's ability to save cookies on your browser through our websites. Please note that if you choose to disable cookies, you will not be able to utilize all features of Scania's websites.

For more information on how to disable cookies, see the instructions for your browser. The following links contain instructions concerning the disablement of cookies in the most commonly used browsers:

Apple Safari

Google Chrome

Microsoft Edge

Mozilla Firefox

Opera

Processing of Personal Data and Transfers to Third Countries

When you consent to Scania's use of cookies, this means that you consent to our processing of your personal data, more specifically your IP address, geographical location, website behavior data, user ID, etc.

Some third party cookie providers are based outside the EU/EEA area, so called '**third countries**'. This means that when you consent to the placement of third party cookies provided by companies such as Google, your personal data may be transferred to a third country, in particular to the United States. In third countries, the EU's General Data Protection Regulation (2016/679) ('**GDPR**') does not apply, which means increased risk exposure for your personal data, including the possibility for authorities in third countries to access the personal data and your ability to exercise your rights as a data subject.

Read more about our personal data processing in our Privacy Statement found above.

Contact Information and Changes to this Cookie Policy

If you have any questions regarding our use of cookies, please contact us via the following contact details:

Online:https://www.scania.com/group/en/home/admin/misc/privacy-statement/contact-privacy.html

Telephone: +46 (0) 8 553 810 00

Postal Address: Scania CV AB, ATT: Data Protection Office, ZCD, S-151 87 Södertälje, Sweden.

Our cookie policy may be updated in the future. The latest version is always available on our website. You can read more about cookies and your rights on the Swedish Supervisory Authourity's (Sw: Post- och Telestyrelsen) website: https://www.pts.se/internet-och-telefoni/kakor-cookies/.

com.adobe.reactor.core.visitorTracking.landingPage	Stores visitors' navigation by registering landing pages - This allows the website to present relevant products and/or measure their advertisement efficiency on other websites.	adobedtm.com	HTML	Session
com.adobe.reactor.core.visitorTracking.landingTime	Sets a timestamp for when the visitor entered the website. This is used for analytical purposes on the website.	adobedtm.com	HTML	Session
com.adobe.reactor.core.visitorTracking.pagesViewed	Contains data on user navigation, interaction and time spent on the website and its sub-pages. This data is used to optimise the relevance of advertisements and for statistical	adobedtm.com	HTML	Persistent

	purposes.			
com.adobe.reactor.core.visitorTracking.sessionCount	Contains data on user navigation, interaction and time spent on the website and its sub-pages. This data is used to optimise the relevance of advertisements and for statistical purposes.	adobedtm.com	HTML	Persistent
com.adobe.reactor.core.visitorTracking.trafficSource	Used by the website's owners to identify how the visitor accessed the website. This is used for statistical purposes.	adobedtm.com	HTML	Session
demdex	Via a unique ID that is used for semantic content analysis, the user's navigation on the website is registered and linked to offline data from surveys and similar registrations to display targeted ads.	demdex.net	HTTP	180 days
dpm	Sets a unique ID for the visitor, that allows third party advertisers to target the visitor with relevant advertisement. This pairing service is provided by third party advertisement hubs, which facilitates real-time bidding for	demdex.net	HTTP	180 days

	advertisers.			
everest_g_v2	Used for targeted ads and to document efficacy of each individual ad.	everesttech.net	HTTP	1 year
everest_session_v2	Used for targeted ads and to document efficacy of each individual ad.	everesttech.net	HTTP	Session
isg	Sets a unique ID for the visitor, that allows third party advertisers to target the visitor with relevant advertisement. This pairing service is provided by third party advertisement hubs, which facilitates real-time bidding for advertisers.	youku.com	HTTP	180 days
LAST_RESULT_ENTRY_KEY	Used to track user's interaction with embedded content.	youtube.com	HTTP	Session
MR	Used to track visitors on multiple websites, in order to present relevant advertisement based on the visitor's preferences.	bing.com	HTTP	7 days
MR	Used widely by Microsoft as a unique user ID. The cookie enables user tracking by synchronising the ID across many Microsoft domains.	c.clarity.ms	HTTP	7 days
MUID	Used widely by Microsoft as a	bing.com	HTTP	1 year

	unique user ID. The cookie enables user tracking by synchronising the ID across many Microsoft domains.			
MUID	Used widely by Microsoft as a unique user ID. The cookie enables user tracking by synchronising the ID across many Microsoft domains.	clarity.ms	HTTP	1 year
nextId	Used to track user's interaction with embedded content.	youtube.com	HTTP	Session
NID	Registers a unique ID that identifies a returning user's device. The ID is used for targeted ads.	google.com	HTTP	6 months
ontame_id.bcbe	This cookie determines which job advertisements the visitor is shown, and which are clicked on - this information is used to make the advertisements more relevant.	candidate.hr-manager.net	HTTP	1 year
ontame_ses.bcbe	This cookie determines which job advertisements the visitor is shown, and which are clicked on - this information is used to make the advertisements more relevant.	candidate.hr-manager.net	HTTP	1 day
pagead/landing	Collects data on visitor behaviour from	doubleclick.net	Pixel	Session

	multiple websites, in order to present more relevant advertisement - This also allows the website to limit the number of times that they are shown the same advertisement.			
PREF	Registers a unique ID that is used by Google to keep statistics of how the visitor uses YouTube videos across different websites.	youtube.com	HTTP	8 months
receive-cookie-deprecation	Collects information on user behaviour on multiple websites. This information is used in order to optimize the relevance of advertisement on the website.	adform.net	HTTP	2 months
remote_sid	Necessary for the implementation and functionality of YouTube video-content on the website.	youtube.com	HTTP	Session
requests	Used to track user's interaction with embedded content.	youtube.com	HTTP	Session
retargeting	Registers user behaviour and navigation on the website, and any interaction with active campaigns. This is used for optimizing advertisement and for efficient retargeting.	c.seznam.cz	Pixel	Session

sca	Used to track user's interaction with embedded content	mmstat.com	HTTP	Session
ServiceWorker LogsDatabase #SWHealthLog	Necessary for the implementation and functionality of YouTube video-content on the website.	youtube.com	IndexedDB	Persistent
sid	Preserves users states across page requests.	seznam.cz	HTTP	30 days
SM	Registers a unique ID that identifies the user's device during return visits across websites that use the same ad network. The ID is used to allow targeted ads.	c.clarity.ms	HTTP	Session
SRM_B	Tracks the user's interaction with the website's search-bar-function. This data can be used to present the user with relevant products or services.	bing.com	HTTP	1 year
TESTCOOKIES ENABLED	Used to track user's interaction with embedded content.	youtube.com	HTTP	1 day
uid	Registers a unique user ID that recognises the user's browser when visiting websites that use the same ad network. The purpose is to optimise display of ads based on the user's	adform.net	HTTP	2 months

	movements and various ad providers' bids for displaying user ads.			
VISITOR_INFO 1_LIVE	Tries to estimate the users' bandwidth on pages with integrated YouTube videos.	youtube.com	HTTP	180 days
YSC	Registers a unique ID to keep statistics of what videos from YouTube the user has seen.	youtube.com	HTTP	Session
yt.innertube::n extId	Registers a unique ID to keep statistics of what videos from YouTube the user has seen.	youtube.com	HTML	Persistent
yt.innertube::r equests	Registers a unique ID to keep statistics of what videos from YouTube the user has seen.	youtube.com	HTML	Persistent
ytidb::LAST_R ESULT_ENTRY _KEY	Used to track user's interaction with embedded content.	youtube.com	HTML	Persistent
YtIdbMeta#dat abases	Used to track user's interaction with embedded content.	youtube.com	IndexedDB	Persistent
yt-remote-cast-available	Stores the user's video player preferences using embedded YouTube video	youtube.com	HTML	Session
yt-remote-cast-installed	Stores the user's video player preferences using embedded YouTube video	youtube.com	HTML	Session
