# DISC BRAKE PADS AND ACCESSORIES

Welcome to the First Edition of the VRS Disc Brake Pads and Accessories Catalogue.

VRS provides a market leading range of OE quality aftermarket braking and friction components for all makes of trucks and trailers.

All the parts found inside this catalogue are available to order through the Scania UK network, and are just a small selection of what we offer. You can view our complete range of products online at [vehiclereLATEDservices.co.uk](http://vehiclereLATEDservices.co.uk) or contact your local Scania dealer for more details.

# DISC BRAKE PAD INFORMATION

## ECE REGULATION 90

All the brake pads listed in this catalogue are **tested and approved to ECE Regulation 90, E4 and E11**. This stipulates that replacement parts comply with European braking requirements for performance, fade and heat, and that their performance is within 15% of that of the OE product.

## FRICTION GUIDE

**615 material** is an outstanding heavy vehicle disc pad friction material with a low metallic, organic base. Designed to operate in premium trailer and premium truck applications.

**625 material** is a high demand, high inertia disc pad material for city-bus and super duty applications. Low metallic, organic in base and ideally suited for applications where two piece rotors feature.

Lined area for notes.

NOTES

A large rectangular area with horizontal white lines on a light gray background, intended for taking notes.

# UPTIME IN GOOD TIME
